What Does A Wedding Florist Do?

- We specialize in weddings and events
 - This means we know how to process your flowers to be at the peak of their bloom cycle the day of your event.
 - This also means that we are excellent planners- calculating exactly how many flowers of each variety we need to create your floral dream to bring your vision to life.
 - And, that we've worked at many of the local venues to know exactly how your decor can make an impact on your space, create beautiful photo opportunities, and truly wow your guests (and your mother-in-law-to-be).
- We network with local venues and vendors
 - This means we have great working relationships with other wedding professionals to ensure a smooth-sailing day.
 - And, we're able to refer other professionals that may be a great fit for your event needs, personality, and aesthetic (if you haven't booked them all yet).
- We have a rental inventory for the whole design aesthetic.
 - This is so you don't have to collect a mish-mosh of decor, store all of that decor to use for one day, and figure out what the heck you'll do with that decor after your event.
 - This also means that we know exactly how each of our decor elements will blend beautifully with your vision. Like our tapered candles and holders, linens, or plethora of votive holders.

Wedding Florists help in your planning process in several ways:

- We're your peace of mind throughout your planning and design process.
- We help give you assurance on your ideas,
- Answer questions as they arise.
- Guide you in linen colors that match your floral palette,
- Help coordinate your floral decor to the venue choice,
- Give feedback to help maximize the space,
- Come up with creative ideas to maximize your arrangements
- Then, we prep, design, deliver, install, turn-over, and clean up the decor for the day of your event, so you can feel like a guest at your own wedding!
